| 5:00 pm    | **STS Happy Hour**                                                                                         | @ Beachbum Berry’s Latitude 29 (321 N. Peters) | Social time for members and prospective members. This will be a “no host” event. Close to the location for Council I meeting, which follows.  
  – **Sponsored by the STS Membership & Recruitment Committee**  
| 7:00 pm    | **STS Council I meeting**                                                                                | @ Sheraton New Orleans, Borgne           | A meeting of elected executive officers and committee and task force chairs. All are welcome to attend and learn more about the inner workings of STS.  
| 8:30 am    | **All Committees Meeting**                                                                               | @ Sheraton New Orleans, Borgne           | This is a meeting of meetings for all STS’ committees and task forces. Each group meeting in-person claims a table to host their meeting. There they will conduct business and welcome any interested parties and new members. New to STS? This is a great chance to learn about the section and its work and maybe even get involved! All are welcome.  
  – **Sponsored by the STS College Science Librarians Discussion Group**  
| 10:30 am   | **College Science Librarians Discussion Group**                                                          | @ Sheraton New Orleans, Bayside A        | This will be an engaging discussion on a topic of interest to science librarians, especially those working in college libraries.  
  – **Sponsored by the STS College Science Librarians Discussion Group**  
| 1:00 pm    | **Federal Science Agencies Update**                                                                       | @ Morial Convention Center, Rm. 227      | Amanda J. Wilson (Head, National Network Coordinating Office, National Library of Medicine) will provide an Open Access update related to federal science information and federal science agencies (CENDI) information/data initiatives. Wayne Strickland (Acting Associate Director, Office of Product Mgmt & Acquisitions, U.S. Department of Commerce, National Technical Information Service) will focus on strategies for continuing collection growth and public access of the National Technical Reports Library (NTRL); NTRL relationship building efforts with the Federal Laboratory Consortium.  
  – **Sponsored by the STS Government Information Committee**  
| 2:30 pm    | **Conference Program Planning - Washington, DC 2019 Committee Meeting**                                    | @ Sheraton New Orleans, Edgewood         | This meeting will commence planning for the STS program at the ALA Annual Conference in Washington, DC in June 2019.  
| 4:00 pm    | **Executive Committee Meeting**                                                                           | @ Sheraton New Orleans, Edgewood         | A meeting of the STS Executive Council, which is composed of the elected officers of STS.  
| 8:30 am    | **General Membership Meeting, Poster Session & Breakfast**                                                | @ Sheraton New Orleans, Grand Ballroom C | Lots to do! Greet old and new colleagues, thank our supporters, learn from the STS poster session, enjoy breakfast, and participate in a professional development activity. The STS poster session features posters covering research or practitioner projects that enhance science and technology librarianship (see abstracts at goo.gl/CQ8HjQ). Attendees will have the opportunity to engage with the poster presenters.  
  – **Sponsored by the STS Research Committee, Professional Development Committee, and Membership & Recruitment Committee**

**#acrlsts**

(slides, handouts, etc. will be posted after the conf.)
**10:30am to 11:30am**

**STS Hot Topics Discussion Group**

@ Morial Convention Center, Rm. 218-219

“Integrating Diversity and Inclusion into STEM Librarianship Practice”

This session features short presentations from STEM librarians discussing the various ways they have incorporated diversity and inclusion into their practices and institutions. Presentation topics include hosted workshops, campus governance, and community of practice collection development. Participants will engage in roundtable discussions centered around diversity and inclusion following the presentations. Speakers include Courtney Crummett (Biosciences Librarian at MIT Libraries), Paula Johnson (Engineering liaison at University of Arizona), Kimberly Shotick (Assistant Dean for User Services and Outreach at Illinois Institute of Technology), Yi Han (Head of Research & International Library Services at Illinois Institute of Technology), and Carmen Cole (Information Sciences & Business Librarian at Penn State University).

– Sponsored by the STS Hot Topics Discussion Group

**1:00 pm to 2:00 pm**

**STS Research Forum**

@ Morial Convention Center, Rm. 208

The STS Research Forum showcases three papers on research projects of interest to science and technology librarians (see abstracts at goo.gl/LwdEKQ). Research projects can be completed or still in process. A commentator will provide substantive feedback on these unpublished works. Time for audience q&a and feedback is also included.

– Sponsored by the STS Research Committee

**6:00 pm to 8:00 pm**

**STS Annual Dinner**

@ Oceana Grill (739 Conti Street in the French Quarter)

Come join your fellow STSers for food and fun.

– Coordinated by STS Members-at-Large
– Sponsored by the American Chemical Society (ACS)

*Pre-registration required. [Questions? Contact Sara Gonzalez, saragonz@ufl.edu or Rachel Hamelers, rhamelers@muhlenberg.edu.]

### Monday, June 25, 2018

**9:00 am to 10:00 am**

**Librarians are a Force for Science: Science Communication and Science Literacy**

@ Morial Convention Center, Rm. 392

The STS program for the ALA 2018 Annual Conference brings together experts in science, science communication, and science literacy to discuss how scientific research is communicated to students and the general public, and to consider the role of librarians and science communication professionals in making sure that the content is evidence-based and accessible. It will consider current events, but also make sure that panelists and participants alike can see how current issues fit into the history of science communication. In addition, it will highlight exceptional and best practices in science communication and science literacy, such as collaborative climate camps and science boot camps. The panelists will be Alison Ricker (Head, Science Library, Oberlin College), Lauren Young (Web Producer and Science Journalist, Science Friday), and Craig McClain (Executive Director, Louisiana Universities Marine Consortium). Aimee Sgourakis (Liaison Librarian to Geology, Environmental Science, Phycology and Sociology, University of Pittsburgh) will moderate the lively and high-impact discussion.
